## INSULATION BLOWING MACHINES – SERIES 600

### Insulation Blower - SERIES 600 - Big Machine Performance In A Compact, Simple And Economical Package

For the mid-sized or entry-level contractor, no other insulation blower provides this level of performance, reliability and versatility at such an affordable price. The SERIES 600 delivers fast and accurate all-fiber performance for many applications.

### Simplified Design - Contractor Proven Platform

The SERIES 600 is built on the same platform as Meyer's larger contractor-proven blowing machines. Designed with contractor productivity in mind, the SERIES 600 integrates:

- A simplified mechanical drive minimizing maintenance, maximizing reliability
- Streamlined controls & simple 3-way remote switch to control air and material flow
- Pre-calibrated factory settings assuring accurate coverage and optimum production rates

The SERIES 600 reflects Meyer's total commitment to the highest standards of quality, craftsmanship and customer support. Backed by the most comprehensive 2-year warranty in the industry, the SERIES 600 will serve the professional applicator for years to come.

	601	603
<b>Power Source</b>	2 Cylinder, Air Cooled Gas Engine	Mechanical Power-Take-Off
<b>Length</b>	75"	75"
<b>Width</b>	38"	38"
<b>Height</b>	72"	72"
<b>Weight</b>	1564 lbs.	1325 lbs.

### Features & Advantages

**Maintenance free agitator arm/pad assembly**

**Weight loaded pressure relief valve**

**Welded 4" structural I-Beam base**

**High precision, robotically welded components**

**Laser cut, CNC punched heavy gauge steel plate**

**Severe service drive train**

**Large diameter, high grade shafting**

**200' 3-way remote control cord (available with optional radio remote)**

**Stainless steel hinges and fasteners**

**Powder coated finish**

**Precision machined rotary airlock feeder**

**Lubricated-for-life bearings**

**Automatic back pressure check valve**

**Heavy duty chains and sprockets**

**Shear pin torque protection**

**Fully guarded drive/power train**

**Low oil shut-off (engine drive models)**
