Insulation Removal Vacuum

The Insulation Removal Vacuum aids in the removal of existing attic insulation, and also transfers recycled fiber from spray applied wall applications.

Features

- Heavy duty impellers
- Removable front panel
- 4" (10 cm) inlet and discharge ports

Insulation Removal Vacuum

Specifications

Overall Dimensions:

Height: 31" (79 cm)

Width: 50" (127 cm)

Length: 3" (79 cm)

Weight:

310 lbs (141 kg)

WV-300:

12 hp Kohler® gasoline engine
